KEEP (Kidney Early Evaluation Program) is a free and complete kidney health screening to identify and educate individuals at increased risk of developing kidney disease.

The KEEP screening program offers blood and urine testing, on-site consultation by a physician, referrals and additional follow up for those whose test results are outside normal ranges. All participants whose test values are outside normal range are contacted and those without access to medical care are referred to appropriate health care providers.

You can pre-register for KEEP by calling the Client Programs Department at (804) 288-8342 , or you can email to madeline.schnare@kidney.org. Please be sure to include your name, address, and phone number.

Service Area(s)

Statewide
