The Beard Center on Aging offers the Aging and Caregiving Resource Center. The Center connects older adults, caregivers, family members, business manager, pastors and anyone interested in successful aging and caregiving with information, resources and services.

The center houses hundreds of free publications on aging and caregiving, as well as books, DVDs and other material for loan. The Center is staffed by Lynchburg College students and community volunteers who can answer questions, provide referral information and research topics as requested.

If you are interested in volunteering at the Resource Center, contact Denise Scruggs at 434.544.8456 or email [agingresourcecenter@lynchburg.edu](mailto:agingresourcecenter@lynchburg.edu).
