Aquatic Physical Therapy provided by Page Memorial Hospital Outpatient Rehabilitation Services is a specialized physical therapy practice using the buoyancy and support of water to enhance exercise and create a safe environment for a patient to work towards recovery and independence.

The pool is accessible to all individuals with disabilities or injuries by using a lift chair or adaptive stairs. It is not necessary to know how to swim to participate in aquatic physical therapy.

Common conditions treated:

- Fibromyalgia
- Osteoarthritis
- Back pain
- Sacroiliac dysfunction
- Rotator cuff
- Paraplegia/Tetraplegia
- General debilitation

- Chronic pain syndrome
- Lower extremity surgical reconstructions & amputations
- Neurological disorders

If you think aquatic physical therapy can assist you in reaching your goals, ask your physician for a referral. Then call the convenient location for you to schedule an appointment. Aquatic physical therapy is covered under Medicare, and many insurance companies will reimburse the cost of this service.
