At Bon Secours Virginia Breast Center (Watkins Centre campus) we offer breast cancer screenings, including digital mammography and breast ultrasound. Also treat breast cancer and benign breast disease using the latest surgical technology as well as detection and state-of-the-art diagnosis techniques, including digital mammography, breast ultrasound, and needle biopsies. We also counsel women about breast cancer treatment options, risk assessment and BRCA (genetic) testing.

Our philosophy is to support the women who are concerned about their breast health and support the cause of breast health, breast cancer awareness and the search for a cure.

Locations in Southside, West End and Hanover county.
