The Senior Visitors Program of Mental Health America of Fredericksburg is a supportive service program that promotes independence and healthy living for older adults in their own home environment and fosters a continued connection to their community.

The program matches socially isolated senior citizens with trained volunteers who provide weekly, home-based visits for companionship and socialization, as well as respite to caregivers.

There is no cost for this program to the client. The Senior Visitors Program is actively seeking senior client referrals and volunteers to serve as visitors.
