Centra Bedford Hospice Care offers hospice care in your home or in a nursing facility. Hospice care may be appropriate for patients of any age who face life-limiting illness or have a life expectancy of six months or less. Care involves relieving troublesome symptoms and providing psychological and social support for the patient and family.

An order by a physician is necessary to begin care. Once an order is provided and Carilion Clinic Hospice has been contacted by the patient, family, or physician to begin services, a clinician will contact the patient or family to schedule a convenient time to visit and initiate hospice care.

For more information or to request hospice services, call 540-587-6592.

Service Area(s)

Bedford County
