The Arlington Victim/Witness Program is part of the Office of the Commonwealth's Attorney.

The goals of the Program include assisting victims in stabilizing their lives; participating fully in the criminal justice system; addressing their needs; and receiving appropriate information and referrals. Localities served are Arlington County, Washington Metro Airport, and the City of Falls Church (felony crime victims only).

This program handles crisis intervention, provides information and referral, and offers protection to crime victims and witnesses, including domestic violence cases. In cooperation with several different law enforcement agencies, we work hard to protect victims and to seek just sanctions for those who choose to violate our laws.

Volunteers are trained to work with senior citizens who have been victimized by crime and work closely with Program staff to provide appropriate services. A volunteer may visit seniors at home in order to explain victims' rights and the criminal justice process. Referrals are made to other agencies working with seniors; crime prevention and personal safety are emphasized.
