The National Osteoporosis Foundation offers information about managing and treatment osteoporosis and

can provide information about any issues related to osteoporosis and help individuals find providers or specialists who treat osteoporosis. The NOF can also help you find answers to your specific medical questions about osteoporosis.

Information on exercise, type of medications for osteoporosis, preventing falls, and

paying for osteoporosis medications can be found on their website. Available publications include The Role of Exercise in the Prevention and Treatment of Osteoporosis and Guidelines for Self-Movement.
