Aid and Assist In-Home Care provide services to individuals who require assistance with their daily routine, but are not ready to leave their own home. Some of the homemaker, companion and social care services offer include homemaker services, friendly conversations; answer the door and telephone; set up social functions and visits; arrange appointments; help write letters and read the mail; communicate with family members and other health care professionals; bereavement sitting.

Services are offered to individuals with decreased sight or hearing, those recovering from major surgery, those with chronic medical conditions or Alzheimer's disease or dementia. Free no-obligation consultation is offered.
