[Caregiver Resource](#) is one of the nation's most extensive FREE sources of information for caregivers and those to whom they turn for help. There are hundreds of articles, forms and checklists to help with all aspects of providing care to seniors

or others who need assistance. It is organized into logical categories that address the key needs of caregivers and their loved ones.

The library also includes an entire section for employers. It provides tools to help employers understand the impact of caregiving on their people and on the organization itself. It provides tools to help identify the organizational costs of working caregivers and ways to analyze, justify, develop and implement Caregiving and Eldercare programs to help employees.
