The Harbor's Edge Memory Support Center, The Ghent Center, provides a safe, secure, and resort-like atmosphere for residents who have memory impairments. Residents enjoy a spacious residence, supportive health care services, and a stimulating environment that promotes independence and encourages socialization.

Staff works with family members and residents to create an appropriate care plan that preserves residents' dignity and encourages their independence. In addition, the Memory Support staff is specially trained to work with residents with memory impairment. They monitor the resident's health and abilities daily and encourage them to engage in structured, multi-sensory activities to stimulate their mental and physical focus.
