Construction Restoration is a non profit organization based in Stafford County that provides assistance to the working poor and families in crisis under the umbrella of five ministries. One of those ministries is Automobile for transportation.

Automobile – Receives donated automobiles and performs all necessary repairs to pass Virginia State inspections. CRM gives the automobiles to a needy individual or family, who have no other means of transportation. Transportation is essential in this area to secure and maintain viable employment. Individuals who can't get to work, can't keep their jobs. If they can't keep their jobs, they often lose their homes.

Other ministries include Disaster relief, helping hand and firewood.
